**Allowance**

1. Claims 49-58, 60-63 and 65 are allowed.

**Reasons for Allowance**

2. Voit discloses a system for sending call related information to a customer's set top box (see column 6). In operation, a trigger is activated when a calling party makes a telephone call to the called party (see column 9). A signal switching point (SSP) detects the trigger (see column 9). The SSP composes and sends a query to an integrated service control point (ISCP) with the calling number of the incoming call (see column 9). The ISCP is then informed, or asks a Level 1 gateway, whether the customer's set-top box is active (see column 10). Upon receiving the message, the SSP processes the call by causing call related information to be displayed on the customer's television (see column 12). In other words, Voit's ISCP receives information regarding the set-top box in response to a call being made to the called party.

Thus, Voit does not disclose, teach or suggest receiving status information regarding a set-top box independent of receiving a request for establishing a communication session, as recited in claims 49, 52, 60 and 65.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
